

Plugin Files

Use this [wiki plugin](#), introduced in [Tiki3](#), to display a list of files like in a file gallery listing. You can also create a link to a slideshow of images in a file gallery.

The files can identified by their:

- ID
- gallery
- category
- gallery and category

Requirements

Regarding permissions:

- The file gallery must be visible by the user in order for the file to be listed or displayed
- A category with a permission on a file has no effect

Parameters

List files by ID, gallery or category, or show a slideshow of image files

Introduced in Tiki 3.
