Plugin Group Stat

Introduced in [Tiki4](#)

This [wiki plugin](#) is used to show the distribution of users among a list of groups.

Parameters

Tiki Doc From Code error: groupstat not found

Examples

Using percent of site users

This code:

```
{groupstat percent_of="site"}
```

Would produce on this site:

Group Name	Number of Users	Percentage of Total
Admins	35	0.30%
DocContributors	10	0.09%
DocTwoAdmins	22	0.19%
DocTwoEditors	14	0.12%
Team Developers	352	3.06%

Screenshot

Here's a screenshot of an example listing showing numeric percentages:
