Plugin Register Member Payment

Using the plugin Register Member Payment you can allow visitors to register and pay membership fees to be added in a group of users in Tiki. Existing users, registered users, can also use this plugin to subscribe to a group.

Introduced in Tiki9.1 and improved through several Tiki versions.

This can be used once group and group policies (parameters) have been set in a way users can assign themselves to a group and this group has memberships settings sets and saved:

- User Choice
- Membership expiry
- Anniversary
- Number of Days

To admin your Tiki group, see: User Groups and Payment.

You can use this wiki plugin to register and make a member payment in the same step.

Parameters

Register and make a member payment at the same time
*Introduced in Tiki 9.1. Required parameters are in **bold**.*
Go to the source code
Preferences required: wikiplugin_registermemberpayment, payment_feature

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		NA		
price	text	Price per period (USD).		5.0
group	groupname	Name of the group for which the subscription should be added or extended.		5.0
fixedperiods	text	Give specific periods that can be chosen with a dropdown list. Example: `name:value;name:value;value;value;`	Number of periods:	9.1
freeperiods	int	Give specified numbers of free periods, the first one could be prorated, in addition to those bought	0	9.0
howtitle	text	Add a title to the payment form when initially shown after clicking "Continue". Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax	Membership to %0 for %1 (x%2)	6.0
inputtitle	text	Title of the initial input form. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax.	Membership to %0 for %1 (x%2)	6.0
periodslabel	text	Customize the label for the periods input. No effect if Hide Period is set to Yes (y).	Number of periods:	9.1

`paytitle`	text	Title of the payment form after the initial showing. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax	Membership to %0 for %1 (x%2)	11.0
`currentuser`	(blank) y n	Membership only for the current user	n	6.0
`preventdoublerequest`	(blank) y n	Prevent user from extended if there is already a pending request	n	8.0
`returnurl`	url	Page that payment service returns to after processing.		11.0
`hideperiod`	(blank) y n	Do not allow user to set period - use default of 1.	n	11.0
`inputtitleonly`	(blank) y n	Select Yes (y) to just show the title of the input form and not the period and cost information. Input Title must be set as well.	n	11.0
`howtitleonly`	(blank) y n	Select Yes (y) to just show the title of the payment form. Initial Payment Form Title must be set as well.	n	11.0
`paytitleonly`	(blank) y n	Select Yes (y) to just show the title of the payment form that shows after the initial viewing. Subsequent Payment Form Title must be set as well.	n	11.0
