

# Security Search Results tab

## Overview

Use this tab to configure how Tiki handles the security of specific items when returning search results.

### Related Topics

- [Search General Settings](#)
- [Search](#)

## To Access

From the [Security](#) Admin page, click the **Search Results** tab.

## Note

These fields apply only for the Tiki MySQL Search, and can also be configured on the Permissions area of the [Search General Settings](#) tab.

Option	Description	Default
<a href="#">Ignore category viewing restrictions</a>	Display items the user may not be entitled to view in search results.  <i>Will improve performance, but may show forbidden results</i>	Disabled
Ignore individual object permissions	Display items the user may not be entitled to view in search results.  <i>Will improve performance, but may show forbidden results.</i>	Disabled
