

# Articles Config

# Admin Access

To access administration, go to **Home Page** and, on the **Menu**, click on "**Admin (click!)**".

# Sections: Tiki Admin Panel

You will access the **Sections** Tiki Admin Panel (see Admin Panels ), as shown in this graphics:

# Article/CMS settings

From the Tiki Admin Panel, click the Articles icon to display the Articles setup panel, the top of which appears like so:

The screenshot shows the 'Articles' setup panel with the following sections:

- CMS settings**
  - CMS features
    - Rankings:
    - Comments:
    - Spellchecking:
    - Use templates:

Set features
  - Maximum number of articles in home: 

Change preferences
  - Article comments settings
    - Default number of comments per page:
    - Comments default ordering:
