Default zoom level:

Map mode in listings

Description

Go to Google to get your Maps API Key

To get the following X and Y coordinates, you can go to Google Maps, turn on the latlng marker if needed, select where you want to center the map, right click and drop the marker. You can then copy the x and y coordinates.

Paste the X coordinate for the map center in this field

Paste the Y coordinate for the map center in this field

Select your default zoom level here
