

Cart Module

Introduced in Tiki5

This module displays the content of the cart, allows to modify quantities and proceed to payment. It is intended to be used in conjunction with PluginAddToCart.

Usage

You can assign the module in a module zone using the standard Module Settings Interface.

You can also insert the module in any page using the PluginModule:

Module

```
{module module="cart" ajax="y" showItems="y" showCount="y" showItemButtons="y" nobox="y"}
```

Parameters

Displays the content of the cart, allows quantities to be modified and proceeds to payment.

Go to the source code
