

# Module Web Search

This Module Displays a simple form to perform a web search with choice on multiple search engines.  
click Web search engines to learn more about the features of each of the search engines.

# Parameters

Displays a simple form to perform a web search with choice on multiple search engines.

[Go to the source code](#)

| Parameters         | Accepted Values          | Description                                      | Default | Since |
|--------------------|--------------------------|--------------------------------------------------|---------|-------|
| <code>title</code> | (blank)<br>true<br>false | Direction for menu: horiz or vert (default vert) | false   |       |

# Usage

You will see it listed at "Admin > Modules > Assign new module > Module Name (drop down)" (**tiki-admin\_modules.php**).

You can assign this Module to a lateral column (See Module Admin page if needed), or you can include it within a wiki page, using the PluginModule.
