

# Plugin Cookie Consent

Use this wiki plugin, introduced in Tiki10, to display content based on whether cookie consent has been granted by the user.

## Parameters

Display content based on whether cookie consent has been granted by the user.

*Introduced in Tiki 10.*

[Go to the source code](#)

*Preferences required:* `wikiplugin_cookieconsent`, `cookie_consent_feature`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		Wiki syntax containing the content that can be hidden or shown.		
<code>element</code>	word	DOM element to contain everything (div, span, etc). The default is <code>div</code> , set to <code>none</code> for no container.	div	10.0
<code>element_class</code>	text	CSS class for above.		10.0
<code>no_consent_class</code>	text	CSS class for no consent message. Default: <code>wp-cookie-consent-required</code>	wp-cookie-consent-required	11.1
<code>no_consent_message</code>	text	Message displayed if user has not consented to accepting cookies.	Sorry, cookie consent required	10.0

# Example

Settings > Control Panel > Log in > Cookie consent for analytics = checked

---

{COOKIECONSENT(no\_consent\_message="To see this content you have to accept our cookie consent stuff  
[?cookie\_consent|Click to modify your cookie consent]" no\_consent\_class="no\_analytics")}If the user checked the  
analytics box, this will be displayed.{COOKIECONSENT}

The following code will open the Cookie Consent again:

---

[?cookie\_consent|Click to modify your cookie consent]
