

Introduction

Slideshow has been upgraded in Tiki19 and Plugin SlideShowSlide is a part of the upgrade.

The plugin SlideShowSlide is used to customize any individual slides in a slideshow. For example if you want to have a different background of a slide from the global settings then you will use Plugin SlideShowSlide.

The screenshot shows the 'SlideShowSlide' configuration window with the following fields and options:

- Slide Background color:** A text input field with the placeholder 'Set background color for slide.'
- Slide Text color:** A text input field with the placeholder 'Set text color for slide.'
- Plugin Background Image:** A text input field with the placeholder 'URL of the background image to use in your slideshow, see slides backgroundcolor'.
- Plugin Background Size:** A text input field with the placeholder 'width, e.g. "100px 500px" - currently only pixels are supported (don't use % or auto)'. Below this is a checkbox labeled 'Force background image to fit'.
- Plugin Background Repeat:** A text input field with the placeholder 'Number of pixels to move the plugin background per slide. Calculated automatically unless specified. Set to 0 to disable movement along x axis'.
- Plugin Background RepeatY:** A text input field with the placeholder 'Number of pixels to move the plugin background per slide. Calculated automatically unless specified. Set to 0 to disable movement along y axis'.
- Background Video URL:** A text input field with the placeholder 'https://www.youtube.com/watch?v=...'. Below this is a checkbox labeled 'Automatically plays a full size video behind the slide'.

1.2. Parameters

Advance plugin to add slide in slideshow with different background colors, background video, transition and other settings.

Introduced in Tiki 19.

[Go to the source code](#)

Preferences required: `wikiplugin_slideshow`, `feature_slideshow`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		Enter content of slide		
<code>backgroundVideoUrl</code>		Automatically plays a full size video behind the slide		19.0
<code>parallaxBackgroundHorizontal</code>		Number of pixels to move the parallax background per slide, Calculated automatically unless specified. Set to 0 to disable movement along an axis		19.0
<code>parallaxBackgroundSize</code>		syntax, e.g. "2100px 900px" - currently only pixels are supported (don't use % or auto)		19.0
<code>parallaxBackgroundVertical</code>				19.0
<code>bgColor</code>		Set background color for slide.		19.0
<code>textColor</code>		Set Text color for slide.		19.0
<code>backgroundTransition</code>	none fade slide convex concave zoom	Transition style for full page slide backgrounds	fade	19.0

<code>videoMuted</code>	n y	Flags if the audio should be muted for background video	y	19.0
<code>backgroundUrl</code>		URL of the background image to use in your slideshow, overrides <code>backgroundcolor</code>		19.0

transitionIn	none fade slide convex concave zoom	Select entry transition effect for slide	19.0
transitionOut	none fade slide convex concave zoom	Select exit transition effect for slide	19.0
transitionSpeed	(blank) fast slow	Transition Speed	19.0

Sample

It should be used to enclose the content of a slide.

```
{slideshow theme="simple" transition="zoom" transitionSpeed="default" backgroundTransition="none"
controls="y" controlsLayout="bottom-right" controlsBackArrows="faded" progress="y" slideNumber="y"
fragments="n" fragmentClass="grow" fragmentHighlightColor="none" autoSlideStoppable="y" alignImage="n"}
{SLIDESHOWSLIDE(bgColor="#fff" textColor="blue" videoMuted="n" videoLoop="n" transitionIn="none"
transitionOut="none" backgroundTransition="none")} !!Slide one {SLIDESHOWSLIDE}
{SLIDESHOWSLIDE(bgColor="#444" textColor="red" videoMuted="n" videoLoop="n" transitionIn="none"
transitionOut="none" backgroundTransition="none")} !!Slide two {SLIDESHOWSLIDE}
{SLIDESHOWSLIDE(bgColor="#000" textColor="#fff" videoMuted="n" videoLoop="n" transitionIn="none"
transitionOut="none" backgroundTransition="none")} !!Slide three {SLIDESHOWSLIDE}
```
