

Starting a Slideshow

Click the "Slides" button at the bottom of the wiki page.

New since Tiki7: A new slideshow engine based on JQS5 has been added in Tiki. See an example at the PluginSlideshow page.

Example:

See this page: http://tikiwiki.org/Presentation20050319Crisol_Argentina
From this normal looking Tiki page (central and right columns in wiki view mode)...

The screenshot shows a Tiki Wiki page with a navigation menu at the top: Home, About, First Steps, Community, Forums, Support, Extras. The main content area is titled "Presentation to Crisol" and includes a description: "Presentation to Crisol, an open source conference in Argentina". Below this is a link to <http://www.crisolargentina.org.ar/>, the date "March 19th 2005", and the software "Tiki CMS/Groupware". The author is listed as "Marc Laporte (Canada) Project admin" and the developer as "Martin Sarsale aka Runix (Argentina) Developer". The page has two sections: "Introduction" and "Philosophy".

- Introduction**
 - Wiki + CMS + Groupware
 - PHP/ADODB/Smarty/LGPL
 - Installs on Linux, Windows or Mac
 - Started in October 2002 by Luis Argerich (Argentina)
 - Excellent for mixte Web/Intranet environment
- Philosophy**
 - We eat our own "DogFood" -> this presentation is in Tiki
 - Classic open source project: release early, release

The right sidebar contains a search box for "Search Wiki PageName", a "Quick edit a Wiki page" form, and a "Menu" section with links to Home, Categories, MyTiki, Wiki, Image Galleries, Articles, Blogs, Forums, Directory, File Galleries, FAQs, and TikiSheet.

...when you click on the **slides** button, you can see it in the slides presentation mode (showing slide 2 in this
