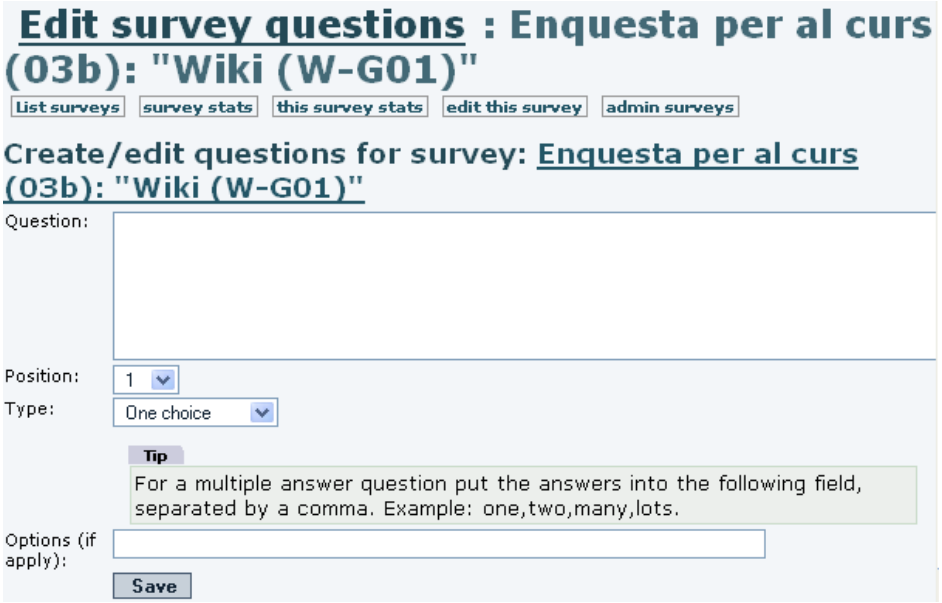
Survey questions

Once you click on the question link ( ), you will be able to add questions (**tiki-admin_survey_questions.php**):



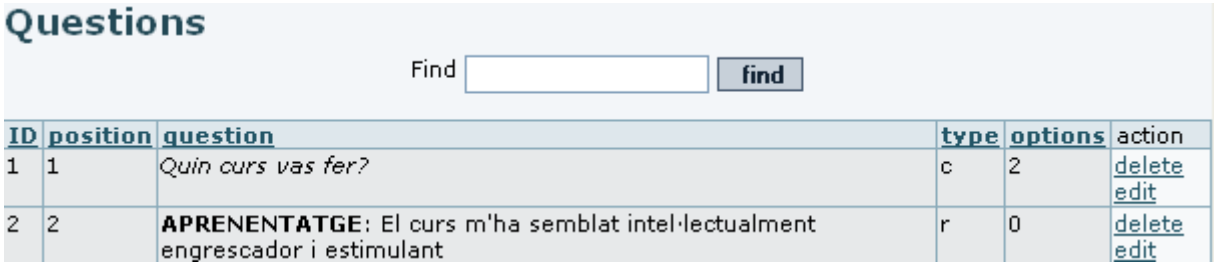
You can use several question types when creating a survey:

- Short text questions
- Single choice questions
- Multiple choice questions
- Rate 1..5 questions
- Rate 1..10 questions

Select the question type and enter the question text. If the question has options, such as with single or multiple choice questions, enter the options separated by commas. The options will appear as possible answers to the questions.

When some questions are inserted, you can see them listed below at the same page of administration of

questions (**tiki-admin_survey_questions.php**):



Questions

Find find

ID	position	question	type	options	action
1	1	*Quin curs vas fer?*	c	2	delete edit
2	2	**APRENENTATGE**: El curs m'ha semblat intel·lectualment engrescador i estimulant	r	0	delete edit

Short text questions

A short text question will be displayed as an input text box where users can enter text. Tiki will store all the user answers to the question and list them in the stats (if two users enter the same text it will be displayed only once indicating the number of users that entered the text). This type of question can generate fairly long stats since it is unlikely that two users will type the same text.

Single choice questions

A single choice question will display the options as radio buttons and the user must select only one of the options.

Multiple choice questions

In a multiple choice question options will be displayed as checkboxes and the user will be able to click one, some or all the options.

Rate 1..5 questions

The user will be asked to rate the question topic from 1 to 5 using radio buttons.

Rate 1..10 questions

The user will be asked to rate the question topic from 1 to 10. Once a question is created as admin you can practice taking the survey and checking the stats, then you can clear the survey stats and get it ready to be used.
