

Date-based aggregations

New in [Tiki20](#), this requires [Elasticsearch](#)

This adds new facets to the [Faceted search](#)

Admin panel -> Search -> Search Results

The screenshot shows a configuration window for 'Use date histogram aggregations'. It includes a toggle switch, a text input field for 'Date histogram aggregations interval' containing the word 'year', and a text area for 'Date range aggregations ranges' containing several pre-defined date range queries. A red error message at the bottom states 'You need to set Use date histogram aggregations'.
