

Mobile Tiki User

This is a [stub](#). And [needs review](#)

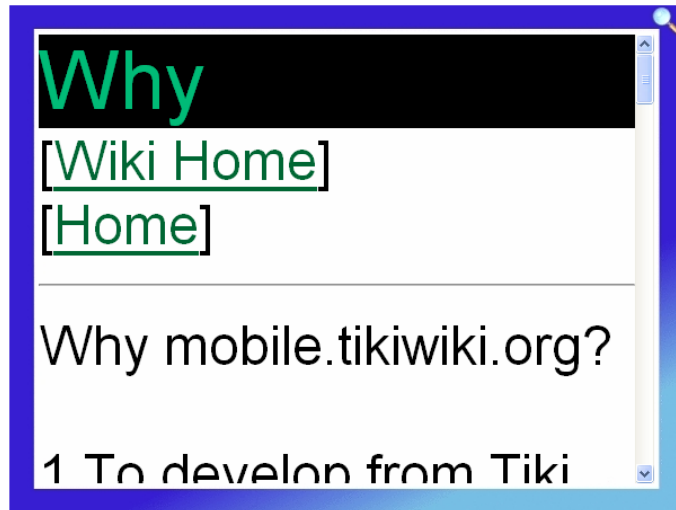

This is how a user will see a MobileTiki enabled site through the computer web browser:

The screenshot shows the desktop version of the mobile.tikiwiki.org website. The page is titled "Welcome to mobile.tikiwiki.org" and has a page ID of 2. The main content area is titled "Objectives for the mobile.tikiwiki.org project" and discusses the goals of the project, including developing a tool for visually challenged users and creating a community around it. The page is divided into several sections: "Menu" (Home, Why?, Who?, WishList, News, Forums, Keywords, Links, TermsOfUse), "Mobile" (Portal, MAGNIFIED, IVR interactive voice response), and "VoiceControl" (instructions for using voice control). There is also a "HAWHAW news" section on the right with several news items. The page is powered by Tikiwiki and has a "Login" button.

This same page, in the mobile version, will look much simpler, using either small fonts:

The screenshot shows the mobile version of the mobile.tikiwiki.org website. The page is titled "Why" and has a green background. The main content area is titled "Why mobile.tikiwiki.org?" and discusses the goals of the project, including developing a tool for visually challenged users and creating a community around it. The page is powered by HAWHAW (C) and has a "Powered by Tikiwiki" logo at the bottom.

Or a magnifying version with larger fonts for visually handicapped people:

Powered by HAWHAW (C)
