- [Plugin AddToCart](#)

## Usage

You can assign the module in a module zone using the standard [Module Settings Interface](#).

You can also insert the module in any page using the [PluginModule](#):

### Module

```
{module module="cart" ajax="y" showItems="y" showCount="y" showItemButtons="y" nobox="y"}
```

## Parameters

Displays the content of the cart, allows quantities to be modified and proceeds to payment.

[Go to the source code](#)
