

Plugin BigBlueButton

Use this [wiki plugin](#), introduced in [Tiki5](#), to invoke a [BigBlueButton](#) in a page.

Parameters

Tiki Doc From Code error: bigbluebutton not found

Example

```
{bigbluebutton name="Room-Number" prefix="Guest: " voicebridge="Room-Number" logout="URL-of-the-logout-page"
recording="1" }
```

You can see an example at [Live](#). Below is a screenshot:

The main meeting room

Permissions
Join

No attendees at this time.

BigBlueButton ✕

Allows to join a BigBlueButton meeting.

Meeting **The main meeting room**
MeetingID provided by BigBlueButton.

Anonymous prefix **Guest:**
Unregistered users will get this token prepended to their name.

Welcome Message **Welcome to live.tikiwiki**
A message to be provided when someone enters the room.

Dial Number **+1-999-999-9999**
The phone-in support number to join from traditional phones.

Logout URL **http://tikiwiki.org/Live_**
URL to which the user will be redirected when logging out from BigBlueButton.

Maximum Participants
Limit to the amount of simultaneous participants in the room. Support for this parameter depends on the BigBlueButton server.
