Plugin Cookie Consent

Use this wiki plugin, introduced in Tiki10, to display content based on whether cookie consent has been granted by the user.

Parameters

Display content based on whether cookie consent has been granted by the user.
Introduced in Tiki 10.
Go to the source code
Preferences required: wikiplugin_cookieconsent, cookie_consent_feature

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		Wiki syntax containing the content that can be hidden or shown.		
element	word	DOM element to contain everything (div, span, etc). The default is `div`, set to `none` for no container.	div	10.0
element_class	text	CSS class for above.		10.0
no_consent_class	text	CSS class for no consent message. Default: `wp-cookie-consent-required`	wp-cookie-consent-required	11.1
no_consent_message	text	Message displayed if user has not consented to accepting cookies.	Sorry, cookie consent required	10.0

Example

Settings > Control Panel > Log in > Cookie consent for analytics = checked

```
{COOKIECONSENT(no_consent_message="To see this content you have to accept our cookie consent stuff
[?cookie_consent|Click to modify your cookie consent]" no_consent_class="no_analytics")}If the user checked the analytics
box, this will be displayed.{COOKIECONSENT}
```

The following code will open the Cookie Consent again:

```
[?cookie_consent|Click to modify your cookie consent]
```
