

Added in [Tiki19](#) this is a complementary plugin to the [slideshow plugin](#) to allow fine tuning per slide.

## Introduction

Slideshow has been upgraded in [Tiki19](#) and Plugin SlideShowSlide is a part of the upgrade. The plugin SlideShowSlide is used to customize any individual slides in a slideshow. For example if you want to have a different background of a slide from the global settings then you will use Plugin SlideShowSlide.

The screenshot shows the 'SlideshowSlide' configuration dialog. It contains the following fields:

- Slide Background color: A color picker with a preview box and a tooltip: "Set background color for slide."
- Slide Text color: A color picker with a preview box and a tooltip: "Set Text color for slide."
- Parallax Background Image: An input field with a tooltip: "URL of the background image to use in your slideshow, overrides backgroundcolor"
- Parallax Background Size: An input field with a tooltip: "syntax, e.g. "2100px 900px" - currently only pixels are supported (don't use % or auto)"
- Parallax Background Horizontal: An input field with a tooltip: "Number of pixels to move the parallax background per slide, Calculated automatically unless specified. Set to 0 to disable movement along an axis"
- Parallax Background Vertical: An input field with a tooltip: "Number of pixels to move the parallax background per slide, Calculated automatically unless specified. Set to 0 to disable movement along an axis"
- Background Video URL: An input field containing a URL: "https://bootstrap4.tiki.org/tiki-download\_file.php?fileId=2&display=1" with a tooltip: "Automatically plays a full size video behind the slide"

## 1.2. Parameters

Advance plugin to add slide in slideshow with different background colors, background video, transition and other settings.

*Introduced in Tiki 19.*

[Go to the source code](#)

Preferences required: `wikiplugin_slideshow`, `feature_slideshow`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		Enter content of slide		
<code>backgroundVideoUrl</code>		Automatically plays a full size video behind the slide		19.0
<code>parallaxBackgroundHorizontal</code>		Number of pixels to move the parallax background per slide, Calculated automatically unless specified. Set to 0 to disable movement along an axis		19.0

<code>parallaxBackgroundSize</code>		syntax, e.g. "2100px 900px" - currently only pixels are supported (don't use % or auto)	19.0
<code>parallaxBackgroundVertical</code>			19.0
<code>bgColor</code>		Set background color for slide.	19.0
<code>textColor</code>		Set Text color for slide.	19.0
<code>backgroundTransition</code>	none fade slide convex concave zoom	Transition style for full page slide backgrounds	19.0
<code>videoLoop</code>	n y	Flags if the background video played in loop	19.0
<code>videoMuted</code>	n y	Flags if the audio should be muted for background video	19.0
<code>backgroundUrl</code>		URL of the background image to use in your slideshow, overrides <code>backgroundcolor</code>	19.0
<code>transitionIn</code>	none fade slide convex concave zoom	Select entry transition effect for slide	19.0
<code>transitionOut</code>	none fade slide convex concave zoom	Select exit transition effect for slide	19.0
<code>transitionSpeed</code>	(blank) fast slow	Transition Speed	19.0

# Sample

It should be used to enclose the content of a slide.

---

```
{slideshow theme="simple" transition="zoom" transitionSpeed="default"
backgroundTransition="none" controls="y" controlsLayout="bottom-right"
controlsBackArrows="faded" progress="y" slideNumber="y" fragments="n"
fragmentClass="grow" fragmentHighlightColor="none" autoSlideStoppable="y"
alignImage="n"} {SLIDESHOWSLIDE(bgColor="#fff" textColor="blue" videoMuted="n"
videoLoop="n" transitionIn="none" transitionOut="none" backgroundTransition="none")}
!!Slide one {SLIDESHOWSLIDE} {SLIDESHOWSLIDE(bgColor="#444" textColor="red"
videoMuted="n" videoLoop="n" transitionIn="none" transitionOut="none"
backgroundTransition="none")} !!Slide two {SLIDESHOWSLIDE}
{SLIDESHOWSLIDE(bgColor="#000" textColor="#fff" videoMuted="n" videoLoop="n"
transitionIn="none" transitionOut="none" backgroundTransition="none")} !!Slide three
{SLIDESHOWSLIDE}
```
