Wysiwyg Editor User

If the site administrator has selected the Wysiwig editor as the default at (Wysiwyg Editor Admin), the edit page will look like this:

	Edit: New page Perhaps you are looking for: HomePage
	Use normal editor Categorize show categories Apply none
	Apply none template: Description:
	$ \begin{array}{c c c c c c c c c c c c c c c c c c c $
ot enabled b	default, the edit page would show a tab saying " Use wysiwyg editor ", which
	ditor from the classical (below) to the visual one (see previous image).
	ditor from the classical (below) to the visual one (see previous image). Edit: New page Perhaps you are looking for: HomePage Use wysiwyg editor Categorize show categories Apply none template:
	ditor from the classical (below) to the visual one (see previous image). Edit: New page Perhaps you are looking for: HomePage Use wysiwyg editor Categorize show categories Apply none

Shifting from visual editor to viewing html source code

Once using the wysiwyg editor, you can shift from the visual editor to the html source code, for instance, using the corresponding "**source**" button.

	Edit: New page Perhaps you are looking for:	
	HomePage	
	Use normal editor	
	Categorize show categories	
	Apply none -	
	template: Description:	
	IIIII X № ® ® ØVI ∽ ~ % Ø Z I ÷ Ø H IE = = = III II (# # B Z U AK × x % % % ↓ @ ®

Tiki6: source shown only if the permission is granted

The wiki page edit toolbar in Wysiwyg mode since Tiki6 is now checking if the user has the permission to use HTML (tiki_p_use_HTML), in order to show the "source" button. Similarly, the permission tiki_p_wiki_view_source will be required to allow converting that html into wiki syntax.

Pasting from word processor documents

There is a special feature (and button) to paste content from a word processor program (), which opens a pop up box with a visual text area. Use this to paste the content from your favourite editing program (such as OpenOffice.org Writer, KWord, ... or whatever other closed source alternatives):

Paste from Word	
Please paste inside the following box using the k Commons Attribution 3.0 The Commons • Science Commons	er a <u>Creative</u>
✓ Ignore Font Face definitions ✓ Remove Styles definitions	Clean Up Box

Inserting or editing internal Wiki links

Pressing on the button "Inserting or editing internal Wiki links" (), will open pop up window that will allow you to create links to current wiki pages in the Tiki site.

Select a Wiki page to link to:
Find find
[prev] Page: 1/1 [next] HomePage
Page name

Inserting Tiki images

Pressing on the button "Tiki image" (
), will open a pop up window that will allow you to insert images into the page.
