Image gallery for doc?

How about creating an image gallery for graphics/screenshots/icons/etc. used in the documenation? This may make it easir to:

1. Re-use common graphics. Right now, I (for one) have no idea where to find common images.
2. Update graphcis for future versions. We would just update the image,right? All the links would remain.

We could create multiple galleries:

- User Images
- Config/Admin images.
- Etc.
