Value
    reference

Parameter
    format

Command
    display (inline)

Description
    to display a link based on the value
    mandatory in cojunction with parameter 'type'
    optionally in cojunction with parameter'separator'

---

    use ''format=reference" for tracker fields which are "page selector" fields, to assure that you link to the page whose name
    is contained in the tracker, rather than to the tracker record.
